## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

*Members of the School Board :*

I have the pleasure of submitting herewith my third annual report as Superintendent of the Schools of your district.

The teaching force of the schools has remained intact for over two years. This has been a material advantage, because frequent changes mean loss of time while teacher and pupil are becoming accustomed to each other. During the past summer four of the teachers attended the summer school at Plymouth Normal, thus increasing their own efficiency and the efficiency of the schools. No school can be better than its teaching force. It is good economy, therefore, to secure and to retain good teachers.

### ENROLLMENT

There has been a gradual increase in the enrollment of the Public Schools. This increase is small, but steady. The first grade is overcrowded. It is impossible for a teacher to take a class of 42 children, more than one-half of whom cannot speak English, and cover the work of the school year satisfactorily. Consequently, many of these children are obliged to repeat the work of that grade.

Another and probably the most serious problem which will confront the School Board next year is the matter of the seventh and eighth grades. This year the enrollment in the eighth grade is very small; that of the seventh is large. Next year there will be a large eighth grade and a larger seventh grade, probably 40 to 45 pupils in all. This number is more than one teacher can handle with any degree of satisfaction.

Last June the School Board decided to reduce the number of grades in the Quamphegan and Sullivan schools, by transferring the fifth grade to the Franklin school. This change has enabled these rural schools to do much better work, while the older children got more attention in a school of one grade. So far I have heard no complaint from the parents.

#### REPAIRS

During the summer the school board made extensive repairs in the three rural school buildings. The interior woodwork was painted, the walls decorated, the seats scraped and varnished, the blackboards painted, new shades where needed were hung and a new roof put on the Quamphegan school. The repairs were thoroughly made at a very low cost. The interiors of these three buildings now present a very neat and attractive appearance.

#### STATE AID

The Legislature of 1921 reduced the school appropriation by \$25,000. This seriously affected the

school district of Rollinsford, owing to the fact that Rollinsford is one of the last districts on the list to receive State Aid. These last school districts, classified as "C" in the State Reports, received only 25 per cent. of the allotment for State Aid. The result of this has been that the Rollinsford district received \$595.65 for 1921, and \$490.49 for 1922 instead of \$1,892.74, the full allotment. These amounts are very small when compared with \$3608.91, the equalization money paid to the school district in 1920-21. Just what the State Legislature will appropriate for next year cannot be forecasted at this time.

#### RECEIPTS AND EXPENDITURES

The receipts for the present year were materially reduced. The School Board expected to receive \$936.46 from the State, but received only \$490.49. The appropriation by the school district for the current year was \$1,500 less than for the previous year. On the other hand, the increased price of fuel has made it necessary to over-run the estimate prepared for the 1922 meeting. During the summer \$350.00 were spent on permanent repairs for which no provision was made. Yet the total expenditures for the current year will be about the same as for last year.

According to the official report issued by the State Department of Education for the year 1920-21 the school district of Rollinsford ranked 162 in the amount of current local expenditures for public edu-

cation per thousand dollars of equalized valuation. For the school year 1921-22 we ranked lower in the list, number 169, thus making a substantial reduction.

The expenditures per thousand dollars for current school expenses during the year 1920-21 of some of the school districts were as follows:

No. 1	Woodstock .....	\$ 20.39
No. 19	Epping .....	14.64
No. 25	Woodsville .....	13.74
No. 42	Charlestown .....	12.42
No. 61	Milford .....	10.99
No. 74	Durham .....	10.55
No. 90	Plymouth .....	9.62
No. 99	Newport .....	9.73
No. 120	Pittsfield .....	8.75
No. 139	Keene .....	8.31
No. 144	Warner .....	8.13
No. 162	Rollinsford .....	7.65

Total number of school districts in the State of New Hampshire, 256.

#### HEALTH WORK

The health work of the schools, under the care of Miss Ellen Doran, is producing results, not only in securing treatment for physical defects, but in constructive effort to secure permanent good health.

She has a nutrition class of 56 pupils. Health talks are given in the rooms to the children. Habits of personal cleanliness and instruction in healthful modes of living, such as cleaning the teeth, bathing regularly, sleeping with windows open, and diet, receive careful attention.

In conclusion I wish to thank the members of the School Board, teachers and parents for their co-operation in carrying on the work of the schools.

Respectfully submitted,

WALTER H. YOUNG,

*Superintendent of Schools.*
